MUNICIPALITY OF KILLARNEY
SCHEDULE "F" of BY-LAW 2019-26
NOISE CONTROL POLICY

All property owners are required to limit noise according to standards set in the "Noise By-law".

The By-law Enforcement Officer will act not only on written complaints but will use a common-sense approach to the application of the "Noise By-law".

When a complaint is received, an Officer will investigate to determine if a violation exists. This by-law will not be used to resolve issues between neighbours. If a violation is found, the officer can issue an Order advising the owner of the violation and requiring that it be remedied.

In view of the fact that the Municipality of Killarney has many diverse neighborhoods such as village areas, waterfront residential, waterfront commercial, farmland and rural residential, enforcement will have to be done with some discretion taking into consideration the complainant, the geographic location of the property in question, the size of the property in question, the type of property in question (farmland vs urban lot) and the effect of the infraction on adjacent properties and the general well-being of the residents of the area, and the Municipality. As the complaints and investigations become more numerous, past practice data as well as the consistent application of the policy will become more evident and will act as a guide in the application of the by-law.

This information is for convenience and quick reference only. For specific information, contact the By-law Enforcement Officer.
